

# R.E. Sunday School Press

Unitarian Universalist Society of the Daytona Beach Area

Volume I Issue 12

October 31, 2008

On Sunday, October 26<sup>th</sup> the RE kids went trick-or-treating through the UUSDBA hospitality hour. Thanks to the generosity of our members & friends they collected over \$177.48! Way to go!

Thanks also to all who attended the 3rd Annual Pumpkin Carving Event. Adults & kids joined in the fun and we all had a "spooktacular" time! A special thanks to Tonia, Jan, Bev, Hollie, Allison, Deb (Hanson), and Kerry for their help with all the particulars!!

**RE Kiva Fall Update:** On October 12<sup>th</sup>, **Lisa and Jack Schwadron** lead their 2nd Kiva initiative with the RE children. Having recently been paid back, in full, their original investment of \$25, careful thought and deliberation was given by each of the RE students present and they unanimously chose to loan their money to Guadalupe Contreras Tovias of Villa de García N.L. Mexico for his General Store. It was a difficult decision for the RE kids, but ultimately Guadalupe's "...wishes to provide his children with an education so that they can better themselves, get a good job, and have a better quality of life" united the kids in their decision making. For more information contact Jack or to learn about the past & current loan please visit our Lenders page:

<http://www.kiva.org/lender/uukids6883>

**Thanks so much Jack for making this happen!!**

## Children's Organic Garden Update:

This past Tuesday several members of the Green Sanctuary committee joined **Joel Tippin** of "Salt of the Earth" in beginning a garden project for our RE children. We met at UU with shovels, rakes, hoes, garden gloves, etc. and got to work digging! Thanks to **Sharon Rich** who introduced us to Joel. He has experience creating community gardens. So, he brought the materials necessary to build a few raised beds. He also supplied what was needed for enriching the soil :) Then, a few days ago **Terri Kolaska** went to a local garden supply shop and purchased quite a few starter plants for us to plant. There is quite a variety and she was able to buy them at wholesale price. The monies we have collected from our aluminum can recycling will easily pay for them!!

Now....

**On 11/2 the Green Sanctuary committee & the RE kids will plant our organic garden. If you'd like to help out, wear comfortable clothing, and bring your "green thumb"!**

Sunday, November 2nd  
**Creative Arts Sunday & Garden Planting**  
Sunday, November 9th  
**Story For All Ages**  
Sunday, November 16th  
**Tapestry of Faith**  
Sunday, November 23rd
